

# Meet Kaitlyn

Kaitlyn with Red Sox player Christian Vázquez

I was diagnosed with osteosarcoma in February 2019 and had my left foot amputated that April. I finished treatment in September 2019. As well as being a cancer survivor, I'm in my first year of high school, was elected as Vice President of the freshman class, and play several instruments! I also enjoy traveling around the world, reading, music, and studying history. Without the Jimmy Fund and my care team, I wouldn't be where I am today.

Rally with me this baseball season by wearing your Red Sox gear to school or work. Start a team at [RallyAgainstCancer.org](https://www.RallyAgainstCancer.org) today.
